DETAILED ACTION

1. This is a notice of allowance in response to the applicant's communication filed on February 20, 2009.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given during a telephone call with Adam Benes Reg. No.: 60,177 on May 06, 2009.

The application has been amended as follows:

Listing of Claims:

1.-52. (Canceled)

53. (New) A method for initializing a Personal Identification Device (PID) before biometric enrollment, the method comprising:

- receiving a unique identifier at a PID;
- receiving at the PID a manufacturer's public key following manufacture of the PID and before a biometric data associated with enrollment is received;
- generating an asymmetric key pair at the PID;
- sending the generated PID's public key and the unique identifier to the manufacturer;
- receiving at the PID a digital certificate of the PID generated by the manufacturer; and

disabling all functionality within the PID such that the PID is in a state waiting for future biometric enrollment by an enrollment authority.

54. (New) The method of claim 53, wherein the asymmetric key pair includes the generated PID's public key, the method further comprising:

sending the generated PID's public key from the PID to a party different than the manufacturer.

55. (New) The method of claim 53, wherein the receiving the digital certificate is based on the manufacturer's public key and the unique identifier.

56. (New) The method of claim 53, wherein the unique identifier is associated with the asymmetric key pair includes the generated PID's public key and the generated PID's private key.

57. (New) The method of claim 53, wherein the digital certificate includes the manufacturer's public key.

58. (New) The method of claim 53, wherein the receiving the manufacturer's public key is from the manufacturer of the PID and separate from the enrollment party authorized to enable enrollment of the biometric data at the PID.

59. (New) The method of claim 53, wherein the PID is configured to enroll the biometric data from a party different from the manufacturer of the PID after the receiving at the PID the digital certificate.

60. (New) The method of claim 53, wherein the digital certificate includes data associated with the PID.

Reason for allowance

4. After consideration of the applicant's Pre-Appeal Brief filed on February 02, 2009 in response to the Office Action mailed on August 20, 2008 and subsequent advisories, and suggested amendment to the base independent claim with features from the applicant's disclosure during pre-appeal conference and further search, claims 53-60 have been found in condition for allowance over prior arts of record.³

5. The following is an examiner's statement of reasons for allowance:

Claim 53 includes the following features of a method which are not taught or further suggested and would not have been obvious over prior arts of record and these claimed features are: receiving at **the PID a digital certificate of the PID generated by the manufacturer**; and **disabling all functionality within the PID** such that the PID is in a state waiting for future biometric enrollment by an enrollment authority.

These features are directed to the post-manufacturing initialization of the device as disclosed in *[Figure 1: steps 101-107 and Paragraph 0020-0027 and 0076-0082]* of the specification. The features of **the claim are limited to the post-manufacturing initialization and before any biometric data enrolment to the PID**. Generating at the manufacturer a digital certificate for the PID and sending back the digital certificate to the PID *[Applicant's disclosure Paragraph: 0081]*; keeping a record of the PID's public key and the received PID's unique identifier by the manufacturer for future reference *[Applicant's disclosure Paragraph: 0081]*; and disabling all functionality within the PID, such that it is in a state waiting for future biometric enrollment by enrolment authority *[Applicant's disclosure Paragraph: 0081, 0077]*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
